Erik Jonsson School of Engineering and Computer Science

Department of Computer Science

Cybersecurity Technology and Policy (BS)

The Cybersecurity Technology and Policy BS is jointly offered by the Department of Computer Science in the Erik Jonsson School of Engineering and Computer Science and the School of Economic, Political, and Policy Sciences.

Bachelor of Science in Cybersecurity Technology and Policy

Degree Requirements (120 semester credit hours)

I. Core Curriculum Requirements: 42 semester credit hours

Curriculum Requirements can be fulfilled by other approved courses from institutions of higher education. The courses listed are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.

Communication: 6 semester credit hours

RHET 1302 College Writing II[1]

ECS 2390 Professional and Technical Communication[1]

Or select any 6 semester credit hours from Communication Core courses (see advisor)

Mathematics: 3 semester credit hours

MATH 2413 Differential Calculus[1, 2]

or MATH 2417 Calculus I[1, 2]

Or select any 3 semester credit hours from Mathematics Core courses (see advisor)

Life and Physical Sciences: 6 semester credit hours

PHYS 2325 Mechanics[1, 3]

PHYS 2326 Electromagnetism and Waves[1, 3]

Or select any 6 semester credit hours from Life and Physical Sciences Core courses (see advisor)

Language, Philosophy and Culture: 3 semester credit hours

Select any 3 semester credit hours from Language, Philosophy and Culture Core courses (see advisor)

Creative Arts: 3 semester credit hours

Select any 3 semester credit hours from Creative Arts Core courses (see advisor)

American History: 6 semester credit hours

Select any 6 semester credit hours from American History Core courses (see advisor)

Government/Political Science: 6 semester credit hours

GOVT 2305 American National Government

and a 3 semster semester credit hour Government/Political Science Core course

Or select any 6 semester credit hours from Government/Political Science Core courses (see advisor)

Social and Behavioral Sciences: 3 semester credit hours

Select any 3 semester credit hours from Social and Behavioral Sciences Core courses(see advisor)

Component Area Option: 6 semester credit hours

MATH 2414 Integral Calculus[1]

or MATH 2419 Calculus II[1]

PHYS 2125 Physics Laboratory I[1, 3]

Or select any 6 semester credit hours from Component Area Option courses (see advisor)

II. Major Requirements: 69 semester credit hours

Major Preparatory Courses: 24 semester credit hours beyond Core Curriculum

ECS 1100 Introduction to Engineering and Computer Science

ECS 1210 Foundations in Engineering and Computer Science I

CS 1436 Programming Fundamentals

CS 1337 Computer Science I

CS 2305 Discrete Mathematics for Computing I

CS 2336 Computer Science II

CS 2340 Computer Architecture

ECS 2390 Professional and Technical Communication

GOVT 2305 American National Government

MATH 2413 Differential Calculus[1, 2]

or MATH 2417 Calculus I[1, 2]

MATH 2414 Integral Calculus[1]

or MATH 2419 Calculus II[1]

MATH 2418 Linear Algebra

PHYS 2325 Mechanics[1, 3]

PHYS 2125 Physics Laboratory I[1, 3]

PHYS 2326 Electromagnetism and Waves[1, 3]

PHYS 2126 Physics Laboratory II

RHET 1302 College Writing II[1]

Major Core Courses: 33 semester credit hours

CS 3341 Probability and Statistics in Computer Science and Software Engineering

CS 3345 Data Structures and Foundations of Algorithmic Analysis

CS 4311 Foundations of Cybersecurity

CS 4322 Fundamentals of Data and Application Security

CS 4344 Trustworthy and Secure AI/ML

CS 4355 Foundations of Digital Forensics and Incidence Response

PPOL 4326 Cyber Security Policy

PPOL 4327 Violence in Cyber Space

PPOL 4328 Governance and Auditing for Cyber Security

PPOL 4329 Cybersecurity Law and Ethics

PPOL 4330 Open-Source Intelligence for Cyber Security

Technical Electives: 12 semester credit hours

Upper division courses offered by the Department of Computer Science in the Erik Jonsson School of Engineering or the School of Economic, Political and Policy Sciences with advisor approval.

III. Elective Requirements: 9 semester credit hours

Free Electives: 9 semester credit hours

Although both lower- and upper-division courses may count as free electives, they must be approved by the advisor.

The plan must include sufficient upper-division courses to total 45 upper-division semester credit hours.

NOTE: Incoming students may need to take the necessary 1000- and 2000- level Mathematics courses (e.g., MATH 1314, MATH 1316, and/or MATH 2312) prior to enrolling into MATH 2413 or MATH 2417. Students transferring into this program at the upper-division level are expected to have completed all of the 1000- and 2000- level Mathematics and Computer Science core course requirements.

1. A required Major course that also fulfills Core Curriculum requirements. If semester credit hours are counted in the Core Curriculum, students must complete additional coursework to meet the minimum requirement for graduation. Course selection assistance is available from the

undergraduate advisor.

2. Three semester credit hours of Calculus are counted to fulfill the Mathematics Core Requirement with the remaining one semester credit hour to be counted under Component Area Option Core.

3. Six semester credit hours of Physics are counted under Science core, and one semester credit hour of Physics (PHYS 2125) is counted under Component Area Core.
