Arts, Technology, and Emerging Communication (BA) with Animation and Games Concentration

This concentration provides a thorough grounding in the development and creation of digital animation and games, including 3D Computer Animation, Motion Graphics, Motion Capture, Educational Games, Real Time Entertainment, and Social Gaming. Animation and Games concentration students will have the opportunity to work in a studio environment, explore visual narrative, game mechanics and experimental animation, and learn project development and management practices. The Animation and Games concentration examines the potential of animation and games in diverse areas such as entertainment, education, and visualization. Close consultation with academic advisors is recommended. By selecting courses from a variety of School elective headings, students are able to infuse other areas of interest into their Animation and Games studies.

Unless otherwise noted, courses in Arts, Technology, and Emerging Communication are open to all students in the University. However, students majoring in Arts, Technology, and Emerging Communication may be given preference in certain course enrollments.

Free Electives: 15 semester credit hours

Both upper-and lower-division courses may be used as electives.

The plan must include sufficient upper-division courses to total 45 upper-division semester credit hours.

1. Incoming freshmen must enroll and complete requirements of UNIV 1010 and the corresponding school-related freshman seminar course. Students, including transfer students, who complete their core curriculum at UT Dallas must take UNIV 2020.
2. Curriculum Requirements can be fulfilled by other approved courses from institutions of higher education. The courses listed are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.
3. Students who are ATEC/CS double degree or who plan to minor in CS must enroll in CS 1436 and/or CS 1337 (if placed out of CS 1436).
