

School of Arts, Humanities, and Technology

Arts, Technology, and Emerging Communication (BA) with Emerging Media Arts Concentration

This Concentration offers students coursework in digital arts areas such as digital fabrication, projection mapping, new media art and performance, sound, time-based media, and video. EMA Concentration students will have the opportunity to engage in studio art practices with emerging media and technology. The EMA Concentration centers on building a portfolio of studio-based artwork as part of the ongoing social role that art plays in reimagining and projecting the human condition. By selecting courses from a variety of School elective headings, students are able to synthesize other areas of interest into their focus on Emerging Media Arts.

Unless otherwise noted, courses in Arts, Technology, and Emerging Communication are open to all students in the University. However, students majoring in Arts, Technology, and Emerging Communication may be given preference in certain course enrollments.

Free Electives: 15 semester credit hours

Both upper- and lower-division courses may be used as electives.

The plan must include sufficient upper-division courses to total 45 upper-division semester credit hours.

1. Incoming freshmen must enroll and complete requirements of UNIV 1010 and the corresponding school-related freshman seminar course. Students, including transfer students, who complete their core curriculum at UT Dallas must take UNIV 2020.
2. Curriculum Requirements can be fulfilled by other approved courses from institutions of higher education. The courses listed are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.
3. Students who are ATEC/CS double degree or who plan to minor in CS must enroll in CS 1436 and/or CS 1337 (if placed out of CS 1436).
4. Course requires additional lower-level prerequisites that will count as free electives.
