Philosophy (BA)

Philosophy is one of the most broad-based, rigorous, interdisciplinary, and socially engaged of the liberal arts. Philosophy poses deep, important, and persistent questions concerning the nature of the good life, why we believe and how we know, the nature of the self and its connection with the world and with society, and the foundations of justice. Philosophy takes up such questions through critical analysis of textual evidence, clear and rigorous argumentation, and questioning of unexamined personal and cultural assumptions. The study of the history of philosophy from all cultures proves central to this process.

Far from being an abstruse, removed, and self-contained pursuit, Philosophy at UT Dallas engages in an interdisciplinary Arts & Humanities program, drawing on and contributing to the study of history, literature, and the arts. Our program is also particularly suited to the STEM excellence of UT Dallas, with a practical and theoretical emphasis on the philosophy of science, technology, and medicine. Finally, the UT Dallas Philosophy BA program strives to be highly pluralistic and intellectually diverse, with emphases in continental, analytic, feminist, American, and non-Western philosophical traditions.

Since the following catalog course descriptions offer very general descriptions, students are urged to consult the detailed course descriptions available on the web site for the School of Arts, Humanities, and Technology. At least one-half of the semester credit hours for a major must be taken at UT Dallas.

Other courses from prefixes besides PHIL may be considered for this requirement on a case-by-case basis, when their syllabus indicates that they have significant philosophical content.

III. Elective Requirements: 48 semester credit hours

Free Electives: 48 semester credit hours

Both upper- and lower-division courses may be used as electives.

Philosophy majors interested in graduate study should strongly consider using some of their free electives for foreign language study in a language that would support an area of their philosophical interest. Similarly, students with a primary interest in areas of philosophy that depend on outside domains of knowledge (such as philosophy of science or philosophy of mind) should consider using some of their free electives for advanced study or a minor in the relevant field.

Students may want to consider using some free elective credit to complete one of the approved minors offered by UT-Dallas, and should consult their academic advisor for more information about their choices.

The plan must include sufficient upper-division courses to total 45 upper-division semester credit hours.

Incoming freshmen must enroll in and complete requirements of [AHTC 1100](#).¹

1. Incoming freshmen must enroll and complete requirements of UNIV 1010 and the corresponding school-related freshman seminar course. Students, including transfer students, who complete their core curriculum at UT Dallas must take UNIV 2020.
2. Curriculum Requirements can be fulfilled by other approved courses from institutions of higher education. The courses listed are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.
3. A required Preparatory course that also fulfills a Core Curriculum requirement. Semester credit hours may be counted in Core Curriculum.
4. 0 semester credit hours beyond Core Curriculum, if the student has not previously completed other courses to satisfy these core curriculum requirements.
5. These courses may have prerequisites not listed in the degree plan, and may add to the student's time to degree.
